

The 2025-2026 Hardin County Republican Committee Strategic Plan

Preamble

The Hardin County Republican Party passionately embraces conservative principles that champion individual freedom, personal responsibility, and free-market economic policies. We envision a society that honors our God-given rights to life, liberty, and the pursuit of happiness. We believe that the government cannot and should not solve every problem. Therefore, Hardin County Republicans support policies that inspire ambition, encourage hard work, reward self-sufficiency, celebrate the family unit, and uphold integrity in both private enterprise and government. Additionally, Hardin County Republicans stand by the rule of law and champion the principle that all individuals are created equal. We believe that everyone deserves equal opportunities, regardless of race, color, gender, creed, or age, reflecting our unwavering commitment to justice and inclusivity. With strong, conservative, Republican leadership unafraid to stand up to those who would fundamentally change our republic and cede authority to global institutions, we can make Kentucky a leader among the states by demonstrating what government of the people, by the people and for the people really means. It is time to Make America and Kentucky Great Again as we embrace the Golden Age!
